Hysterectomy Episode Reimbursement Program

The Arkansas Health Care Payment Improvement Initiative (AHCPII) was developed as a joint effort between Arkansas Medicaid, QualChoice and Arkansas Blue Cross and Blue Shield, its affiliates and subsidiaries (Arkansas Blue Cross). More information may be found within this manual or at www.paymentinitiative.org.

The **Hysterectomy** Episode Program will incentivize better coordination of care, encourage clinical effectiveness, and reward high quality care in order to reduce complications that threaten quality and increase costs.

Episode Definition

The hysterectomy episode includes all care related to the hysterectomy procedure. The hysterectomy episode spans from 60 days prior to the surgery to 60 days after the surgery. Included in the episode are readmission, facility services, inpatient/outpatient professional services, prescription usage, and follow up care.

Principal Accountable Provider (PAP)

The PAP for the hysterectomy episode is the surgeon performing the hysterectomy. The PAP for each episode is identified retrospectively through claims data. As leaders, however, PAPs will share in the savings and excess costs of episodes. A provider must have five or more eligible cases of an episode to be considered a PAP. For example, a physician must have performed at least five eligible hysterectomy episodes. The provider billing for the service on the claim is held responsible in the episode calculations and accurate coding is essential.

Claims Submission

Claims filing procedures will be the same as they are today as described in Arkansas Blue Cross' Provider Network Agreements and provider manuals.

Supplemental Quality Measures

We are currently tracking the following quality measures for providers:

1. Readmission Rate
 - A. All cause 3 day readmission
 - B. 60 day Hysterectomy related readmission
2. Post Op Infection Rate

Adjustments and Exclusions

Hysterectomy Algorithm Summary v1.0

Triggers	An episode is triggered when a patient shows an inpatient admission with procedure codes that include abdominal hysterectomy, laparoscopic hysterectomy, or vaginal hysterectomy. For specific DRG, ICD-9-CM, ICD-10-CM, and CPT/HCPCS procedure codes, please see dataset.
PAP Assignment	The Principal Accountable Provider (PAP) for an episode is the primary surgeon enrolled in an Arkansas Blue Plan provider network that performs the hysterectomy
Exclusions	<p>Episodes meeting one or more of the following criteria will be excluded:</p> <ul style="list-style-type: none"> A. The patient has claims or enrollment records that indicate coordination of benefits with another payer not associated with the Arkansas Blue Plans within the duration of the episode B. The patient does not have continuous coverage with at least one Arkansas Blue Plan throughout the entire episode C. The overall episode cost for the patient exceeds the outlier criteria. Currently, the outlier threshold is set at three standard deviations above the average episode cost for all patients otherwise included in the reporting period for all PAPs D. The patient was discharged against medical advice or due to expiration E. The patient was less than 21 years old or greater than 65 years old at the time of the hysterectomy F. Episode overlaps with another episode G. Provider terminated prior to report publication or is VA H. Out-of-network, non-contracted, or ITS provider identified as PAP I. The patient is pregnant during episode J. Patients in ICU K. The patient had a radical hysterectomy L. The surgery occurred late in the performance period, episode will likely appear on next report M. Hysterectomy Algorithm Summary v1.0

Episode Time Window	Episodes begin 60 days prior to the hysterectomy and conclude 60 days after the discharge for the inpatient stay in which the surgery was performed. Comorbidities are assessed within the same calendar year as the episode.
Claims Included	The following services are included if incurred within the episode: <ul style="list-style-type: none"> • Related services within 60 days prior to procedure (i.e. consult for surgery, etc.) • Related services for triggering procedure (i.e. hospital, anesthesia, etc.) • Related services within 60 days post procedure • All cause readmissions within 3 days of initial discharge, then only readmissions related to hysterectomies

Quality Measures	<p><u>Quality measures “to pass” (payment related):</u></p> <p>A. There are currently no measures linked to Gain Sharing.</p> <p><u>Quality measures “to track” (not payment related):</u></p> <p>A. Readmission rate</p> <p>B. Post-Op Infection</p>
Utilization Measures	No utilization measures are tracked for the hysterectomy episode.
