## Lumbar Spinal Fusion Episode Reimbursement Program

---

The Arkansas Health Care Payment Improvement Initiative (AHCPII) was developed as a joint effort between Arkansas Medicaid, QualChoice and Arkansas Blue Cross and Blue Shield, its affiliates and subsidiaries (Arkansas Blue Cross). More information may be found within this manual or at [www.paymentinitiative.org](http://www.paymentinitiative.org).

The **Lumbar Spinal Fusion** Episode Program will incentivize better coordination of care, encourage clinical effectiveness, and reward high quality care in order to reduce complications that threaten quality and increase costs.

### Episode Definition

---

The Lumbar Spinal Fusion episode includes all care related to the Lumbar Spinal Fusion procedure. The Lumbar Spinal Fusion episode spans from 30 days prior to the surgery to 90 days after the surgery. Included in the episode are readmission, facility services, inpatient/outpatient professional services, prescription usage, and follow up care.

### Principal Accountable Provider (PAP)

---

The PAP for the Lumbar Spinal Fusion episode is the surgeon performing the Lumbar Spinal Fusion. The PAP for each episode is identified retrospectively through claims data. As leaders, however, PAPs will share in the savings and excess costs of episodes. A provider must have five or more eligible cases of an episode to be considered a PAP. For example, a physician must have performed at least five eligible Lumbar Spinal Fusion episodes. The provider billing for the service on the claim is held responsible in the episode calculations and accurate coding is essential.

### Claims Submission

---

Claims filing procedures will be the same as they are today as described in Arkansas Blue Cross' Provider Network Agreements and provider manuals.

### Supplemental Quality Measures

---

We are currently tracking the following quality measures for providers:

1. Readmission Rate
  - A. All cause 3 day readmission
  - B. 90 day Lumbar Spinal Fusion related readmission
2. Post Op Infection Rate
3. DVT Prophylaxis
4. Patient Smoking Status

# Lumbar Spinal Fusion Algorithm Summary v1.7

<b>Triggers</b>	An episode is triggered when a patient shows an inpatient admission with a DRG for any spinal fusion procedure with or without MCC and discharge dates surrounding a claim with the surgical CPT procedure code for arthrodesis. For specific DRG, ICD-9-CM, ICD-10-CM, and CPT/HCPCS procedure codes, please see dataset.
<b>PAP Assignment</b>	The Principal Accountable Provider (PAP) for an episode is the primary surgeon (usually orthopedic or neurosurgeon) enrolled in an Arkansas Blue Plan provider network that performs the lumbar spinal fusion surgery.
